	Government for each series
Minimum Purchase	USD10,000 (ten thousand dollars) in multiples of USD10,000 (ten thousand dollars)

Notes

- 1) Product List, and bond offering prices shall be subject to change at any time. For the updated bond offering price information, please contact Global Markets & Treasury Maybank Indonesia via email GlobalMarketsStaff@maybank.co.id.
- 2) If the Coupons/Returns payment date or Bonds Maturity does not fall on a Bank business day, then any payment will be made on the following business day.

BENEFITS

1. Has a competitive profit-sharing rate and is paid every six months.

Generally, the coupons/returns offered shall be higher compared to the average interest rate on conventional savings.

2. The Customer receive periodic passive income.

Obtain periodic passive in the form of profit-sharing that will be paid directly to Customer's account in accordance with the profit-sharing rate for each series. The profit-sharing for all INDOIS series has been stated at the time of initial purchase and shall be fixed.

3. INDOIS is a safe investment.

INDOIS is a safe investment because the Government of the Republic of Indonesia guarantees the payment of profit-sharings and principal according to the validity period for the type of Bonds issued by the Government according to Law No. 24 of 2002.

4. Get capital gain from potential price increases according to market movements.

INDOIS can be bought/sold to the Secondary Market at any time. Customer may obtain profit from the selling price of INDOIS if it is sold at a higher price than the acquisition price when the Customer purchases INDOIS.

5. The Customer get access to invest in INDOIS products according to sharia principles.

Customer can be active in financial markets that do not conflict with sharia principles because INDOIS does not contain elements of *maysir* (gambling), *gharar* (uncertainty) and *usury* (riba), and has been declared in accordance with sharia principles by the National Sharia Council - Indonesian Council of Ulema (DSN-MUI).

Advantages of Bonds Transactions with Maybank

1. Facilitate the Bonds Trading Process in the Secondary Market

The Customer can make bonds transactions through Maybank branches and/or via the M2U ID App (mobile banking), or Maybank Corporate website.

2. Safe investment

INDOIS is a safe investment because the Government of the Republic of Indonesia guarantees the payment of profit-sharing and principal according to the validity period for the type of Bonds issued by the Government in accordance with Law No. 24 of 2002.

3. Enjoy passive income paid periodically

The Customer obtain periodic passive income in the form of profit-sharing that will be paid directly to customer's account in accordance with the profit-sharing rate for each series. The profit-sharing for all INDOIS series shall have been stated at the time of initial purchase and are fixed.

4. Can be pledged as Collateral

The Bonds can be used as Collateral for Customer's consumer or productive loan application as long as they follow the prevailing terms and conditions.

RISK

INDOIS is a Surat Berharga Syariah Negara issued and supervised by the Ministry of Finance of the Republic of Indonesia. However, the Customer must be aware that the placement of funds in the Indonesian State Bond product dominated by USD contains risks that, but not limited to, are listed in the summary of this product information. The risks that may occur in relation to this Government Bond product are as follows:

Type of Risk	Description
Liquidity Risk	<p>The risk that you/the Customer cannot sell/disburse the investment product quickly at a reasonable price.</p> <p>Liquidity risk can occur if you/the Customer need funds quickly but INDOIS cannot be sold at a reasonable price.</p>
Default Risk	<p>The risk that you/the Customer cannot obtain the payment of funds promised by the issuer when the Coupons/Returns and</p>

	principal of the investment product are due. INDOIS has a very small risk of default because under the SBSN Law, the state guarantees the payment of Coupons/Returns and principal of Government Bonds, including all INDOIS series until maturity, the funds for which are provided in the State Budget every year.
Market risk	The risk that the Customer has the potential for loss (capital loss) due to factors that affect the overall performance of the financial market, including changes in Coupons/Returns rates, changes in economic fundamentals, and unstable political conditions. Losses (capital loss) can occur if the Customer sells at the Secondary Market before maturity at a selling price lower than the purchase price.
Foreign Exchange Rate Risk	The risk that the Customer may lose the initial investment value due to changes in the foreign exchange rate against the Rupiah. Foreign exchange rate risk may occur if the Customer purchases bonds denominated in USD and converts the funds to the original currency IDR, where in conditions where the USD currency is weakening, there is a potential loss from the foreign exchange rate.

FEES

The fees charged to you/the Customer shall be the taxation of Coupons/Returns received by you/the Customer (in accordance with the tax/Income tax regulations in effect in Indonesia).
