"OJK SUSTAINABLE POLICY DEVELOPMENT"

Jakarta, 30 June 2026

Dr. Friderica Widyasari Dewi, S.E., M.B.A.

The Chairperson of Board of Commissioners of Indonesia Financial Services Authority/Otoritas Jasa Keuangan Republik Indonesia

Deliver to the Maybank Sustainable Finance Forum 2026

Quotes....

"Climate change is an existential threat... if you are making investments, coming up with new technologies, changing the way you do business... you are creating value. Companies... that are part of the solution will be rewarded."

Mark Carney

Prime Minister of Canada and (Former) UN Special Envoy for Climate Action and Finance

1 GLOBAL CONTEXT: A NEW REALITY, A DEFINING CHALLENGE

The world is facing interconnected challenges that affect **growth, resilience, and long-term prosperity**.

GEOPOLITICAL UNCERTAINTY

Rising tensions, conflicts, and policy fragmentation create volatility and heighten uncertainty.

ECONOMIC PRESSURES

Slower growth, inflationary pressures, and supply chain disruptions weigh on global recovery.

CLIMATE & NATURE RISKS

Climate change and biodiversity loss are driving financial, social, and environmental risks.

Long-term risks such as climate change can no longer be regarded as secondary concerns. **They have become major threats to global economic stability.**

2 INDONESIA'S COMMITMENT: OUR DIRECTION, OUR RESPONSIBILITY

Indonesia has reaffirmed its commitment to:

- **The Paris Agreement**
- **Sustainable Development Goals (SDGs)**
- **Nationally Determined Contribution (NDC)**
- **Net Zero Emissions by 2060 or sooner**

> "These commitments reflect Indonesia's determination to pursue economic growth that is **resilient, inclusive,** and **environmentally sustainable.**

Achieving these ambitions requires **substantial investment and close collaboration.** The financial sector plays a pivotal role in **mobilizing capital, managing transition risks,** and **supporting the transformation of the real economy.**

3 OJK'S SUSTAINABLE FINANCE INITIATIVES: BUILDING THE ECOSYSTEM

OJK **continues to strengthen** the **sustainable finance ecosystem** through **four key strategic pillars**, among other strategic initiatives.

1 INDONESIA SUSTAINABLE FINANCE TAXONOMY

Strengthening the Indonesia Taxonomy for Sustainable Finance (TKBI) as a credible and transparent framework for classifying sustainable and transition economic activities.

2 CLIMATE RISK MANAGEMENT

Enhancing climate risk management across the financial sector to build resilience and support long-term sustainability.

3 SUSTAINABILITY DISCLOSURE

Improving transparency through disclosures aligned with international standards with a gradual and proportional approach.

4 CARBON MARKET DEVELOPMENT

Supporting the development of Indonesia's carbon market ecosystem to mobilize transition finance and sustainable investment.

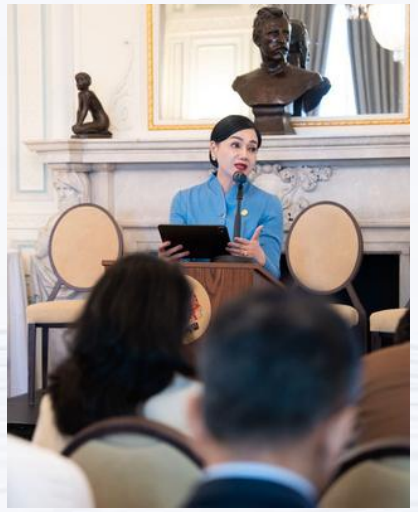
Together, these initiatives create an **enabling environment** where sustainable finance is embedded in **business strategy, risk management, investment decisions,** and **long-term value creation.**

4 FROM POLICY SIGNALS TO MARKET ACTION

The transition to a sustainable economy cannot be achieved by regulators alone.

Success depends on **strong partnerships among governments, regulators, financial institutions, businesses, investors, and international partners.**

Key Takeaways
from OJK's Engagement at London Climate Action Week 2026



01 Strengthening the Sustainable Finance Ecosystem

implementation of the Indonesia Sustainable Finance Taxonomy (TKBI), alignment with IFRS S1 and S2, enhanced climate risk management, and the advancement of transition finance.

02 Scaling Up Carbon Markets and Nature-Based Finance

As a member of Indonesia's Carbon Economic Value Steering Committee (Komrah NEK), OJK plays an active role in Advancing Indonesia's carbon market through stronger governance, SRUK, and together with the Ministry of Forestry, to scale up the Satu Karsa Programme

03 Building Global Partnerships for a Resilient Low-Carbon Economy

Strengthening collaboration with governments, regulators, investors, businesses, and international partners to accelerate sustainable investment and position Indonesia as a regional hub for sustainable and transition finance.
